**Dear Ryan**

I wish to thank you and your team for all the hard work you have completed for me over the past three years.

Moving to a rugged hills area like Brigadoon was a very scary experience for me at first. The unknown costs associated with site works in such a hard rocky area were of major concern to me. You have tackled all jobs with the right equipment and your experience and knowledge has made them all look easy to complete. I have been highly impressed with how efficiently you have completed major jobs like clearing heavy bush and trenching through solid rock. It made it easy to sleep at night knowing I had someone who knew what they were doing on my side.

I would highly recommend your services to anyone that requires clearing, trenching, site works or general earthmoving. I have made it standard practice to give your contact details to anyone purchasing in the area. The feedback from everyone that I have referred to you has been extremely positive so I am more than happy to continue recommending your services. You have proven yourself to be a very honest and reliable worker that gets tough jobs done.

Thanks again & kind regards

Clay Holt
